

True Story I

R 5,700.00

M I L K is a new art collective to articulate self-expression, using their own bodies as a means to convey their individual messages. The collective was formed by four artists; Gillian Rosselli, Martina Gruber, Tosca Marthinus and Neena Borrill in February 2022. Gender identity and sexuality are key areas of investigation. The conversation extends to how they combat various gender norms without compromising safe spaces.
