A powerful warrior woman or Amazon stands proud in this commanding portrait. “...in my ethnic group, the Akans, and in other groups, women have always protected the village, the society... even the king or the chief of an army...” explains Djèka. As with all Djèka’s work, symbolism reigns supreme – her arrow represents a need to press on no matter circumstances. Similarly, her power as a woman is represented by her exaggerated breasts.

Frame	None
Medium	Mixed media on canvas
Height	199.00 cm
