

the swift passage

R 21,739.13

Heidi Fourie's 'the swift passage' was recently displayed as a part of her solo exhibition 'Glimmering beneath' at 99 Loop Gallery. Fourie's 'Glimmering beneath' skilfully combines figures and their surroundings, crafting illusions that captivate viewers with intricate details. In 'the swift passage' Fourie manipulates light and texture in her use of thin oil and pigment, blurring the boundary between art and reality. The artist creates an abstract bouquet through brushstrokes that seamlessly transform into foliage, while double exposures merge the human form with the natural world.
