

## Sinusoidal Nebulous II

## **Call for Price**

Carbon Fibre Sculpture.

Carbon fibre is an embodiment of the great advances in material technology to which the last decades have been subject. Raw carbon fibre is combined with a plastic resin to form carbon-fiber-reinforced polymer composite. Once cured it is eleven times stronger than steel.

Edition Size	1
Medium	Carbon Fibre, Aluminium, Resin.
Height	55.00 cm
Width	65.00 cm
Artist	David Brits
Year	2019
